

## Dr. Gorachand Dutta (PhD)

Assistant Professor Grade-I

School of Medical Science and Technology (SMST), IIT Kharagpur, India

Brain Korea-21 Fellow & NRF- Fellow (South Korea)

Email: [g.dutta@smst.iitkgp.ac.in](mailto:g.dutta@smst.iitkgp.ac.in)

Homepage: <http://www.iitkgp.ac.in/departments/MM/faculty/mm-g.dutta>

Research: Biosensors, Analytical Chemistry, Electrochemistry, Microfluidics, Lab-on-a-chip, Point-of-Care

### Employment

|                       |                                                                                                                                                                      |
|-----------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Jun. 2019 – Present   | <b>Assistant Professor Grade-I</b><br>School of Medical Science and Technology (SMST), IIT Kharagpur, India                                                          |
| Sep. 2017 – Jun. 2019 | <b>Research Associate</b><br>Centre for Biosensors, Bioelectronics and Biodevices (C3Bio), Department of Electronic & Electrical Engineering, University of Bath, UK |
| Jan. 2016 – Sep. 2017 | <b>Postdoctoral Research Scholar</b><br>Department of Mechanical Engineering, Michigan State University, USA                                                         |
| Mar. 2015 – Dec. 2015 | <b>Postdoctoral Research Scholar</b><br>Department of Chemistry and Chemistry Institute for Functional Materials, Pusan National University, South Korea             |

### Education

|                       |                                                                                                                                                                                                                                                                                                      |
|-----------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Sep. 2010 – Feb. 2015 | <b>Ph.D. in Electrochemistry and Biosensor</b><br><i>“Washing-Free Electrochemical Immunosensors and Dependence of Electrocatalytic Activities on Pretreatments and Aging”</i> .<br>Department of Chemistry and Chemistry Institute for Functional Materials, Pusan National University, South Korea |
| Jul. 2008 – May 2010  | <b>M.Sc. in Chemistry</b><br><i>“An asymmetric dinuclear copper(II) complex with phenoxo and acetate bridges: synthesis, structure and magnetic studies”</i> .<br>Department of Chemistry, Indian Institute of Technology Guwahati (IITG), India                                                     |
| Jul. 2005 – May 2008  | <b>B.Sc. in Chemistry</b><br>Department of Chemistry, Vidyasagar University, India                                                                                                                                                                                                                   |

### Editorial Board Member

|               |                                                                                                      |
|---------------|------------------------------------------------------------------------------------------------------|
| 2022-Present  | Guest Editor for Micromachines-MDPI (IF: 3.5)                                                        |
| 2022-Present  | Guest Editor for Frontiers in Chemistry (IF: 5.5)                                                    |
| 2021-Present  | Guest Editor for Frontiers in Sensors on the topic “Nanobiotechnology Enabled Point-of-Care Devices” |
| 2020– Present | Review Editor for Frontiers in Sensors.                                                              |
| 2024- Present | Editorial Member of Scientific Report, Nature Portfolio                                              |

### Teaching, Management & Mentoring Experience

|                       |                                                                                                |
|-----------------------|------------------------------------------------------------------------------------------------|
| July 2019 – Present   | Nuclear Medicine (NM) for UG and MEMS & Biosensor for PG in SMST, IIT Kharagpur                |
| Apr. 2018 – Jun. 2018 | Kick Start Teaching in Higher Education in University of Bath, UK                              |
| Jan. 2018 – May 2018  | Teaching & Co-Supervision of final year project students in University of Bath, UK             |
| Jan 2016 – Sep. 2017  | Teaching and Co-Supervision of PhD students in Michigan State University, USA                  |
| Mar. 2015 – Dec. 2015 | Teaching and Co-Supervision of M.Sc and PhD students in Pusan National University, South Korea |
| June 2019 - Present   | Guiding/guided 10 PhD students and 15 Masters Students at IIT Kharagpur                        |

### Membership

|                       |                                                                               |
|-----------------------|-------------------------------------------------------------------------------|
| Mar. 2021 – Dec. 2021 | IEEE Member (No. 97674194), Technical Activities Chair IEEE Kharagpur Section |
| Sep. 2024- Present    | Member of Royal Society of Chemistry (MRSC) (No. 762982)                      |
| Jul. 2025 - Present   | American Chemical Society (ACS) Membership (No. 33732657)                     |

## Referee of Peer-Reviewed International Journals

Biosensors and Bioelectronics (IF: 10.62), Scientific Reports (IF: 4.12), Communications Medicine (Nature Journal), Sensors and Actuators B: Chemical (IF: 5.7), International Journal of Biological Macromolecules (IF: 3.7), 3 Biotech (1.5), Analytical Biochemistry (IF: 2.2), Applied Physics A (IF: 1.7), and International Journal of Communication Networks and Distributed Systems (IJCNDs) (IF: 0.86), Journal of Electronics and Sensors, Materials Science for Energy Technologies, Microchimica Acta (IF: 5.3).

## Research Funding

| Title of study                                                                                             | From      | To             | Funding Agency                                       | Status: Completed/ongoing | Briefly mention objective and outcome of the project                                                                                                                                                                                                                                                                                                                                                                                                   | No. of publications/ IP from this project if any |

### Research Interest

- Ultra-sensitive biosensor using magnetic bead assays, nanoparticles, CNT, Dendrimer
- Enzyme based immunosensor (ELISA)
- Bio- MEMS for low-cost integration technologies
- Microfluidics
- Printed bioelectronics
- Lab-on-PCB (Printed Circuit Board)
- Lab-on-a-chip devices for biomedical diagnostics
- Electrochemical characterization and application of nanomaterials for fuel cell

## **Patents**

- 1) Biosensor with a Redox Cycling of the Electron Transfer Mediator (Published) H. Yang, S. Park, **G. Dutta**; Pub. No.: [10-2014-0044285](#)
- 2) Redox Adsorption-Dependent Phasance-Based Biosensor (Filed and Published) N. Dutta, **G. Dutta**; Application no.: [202431030038](#)
- 3) Redox Adsorption-Associated Capacitive Immunosensor for the Detection of Rheumatoid Arthritis Biomarker Panel (Filed and Published) N. Dutta, **G. Dutta**; Application No.: [202531019373](#)
- 4) Electrochemical Nitrate Sensing Device for Onsite Soil and Water Quality Monitoring (Filed and Published) B. Mukherjee, **G. Dutta**; Application no.: [202431105087](#)
- 5) Non-enzymatic Electrochemical Salivary Urea Sensor Device for Point-of-Care Settings (Filed and Published) R. R. Suresh, **G. Dutta**; Application no.: [202431086850](#)
- 6) Non-Enzymatic Electrochemical Sensor for Non-Invasive Sebum Based Point-of-Care Parkinson's Disease Detection (Filed) M. Mandal, Sandhya S, M. K. Acharya, **G. Dutta**; Application no.: [202531019409](#)
- 7) Non-Enzymatic Electrochemical Multiplex Aptasensor Platform for On-Site Pesticide Detection (Filed and Published) M. Mandal, **G. Dutta**; Application no.: [202531023744](#)
- 8) A Cost-effective Sodium Ion Sensing Device in Saliva for Point of Care Application (Filed and Published) D.C. Patra, **G. Dutta**; Application No. [202531064032](#)
- 9) A Low-Cost Potassium Ion Detection Device in Saliva for Point-of-Care Application (Filed and Published) D.C. Patra, **G. Dutta**; Application No. [202531057274](#)
- 10) ExView: Reusable Imaging device/holder with Humidity Control of Expansion Microscopy (Filed) A. Ashish, D. Srinivasan, B. Mukherjee, M. Bose, **G. Dutta**; Application No. 202631018614.
- 11) Amplification Free Electrochemical Aptasensor for Point of Care Routine Cervical Cancer Screening (Filed) B. Datta, C. Mitra, M. Mandal, A. Lahiri, **G. Dutta**; Application No. 202631021157.

- 12) Janus microengineered co-culture platform using marine-origin biomaterials- a cell-friendly, 3D-printed microfluidic approach (Filed) A. Ashish, **G. Dutta**; Patent ID No 22207.

### **Awards & Scholarships**

1. Faculty Excellence Award 2025.
2. Prestigious Pusan National University Postdoctoral Research Fellowship, South Korea 2015.
3. Prestigious BK-21 Fellowship and NRF Fellowship from Korean Research Foundation (KRF).
4. Received best five oral presentation award at International BK21 conference 2012 Korea.
5. Received International Travel Grant from KRF to attending 62nd Annual Meeting of the International Society of Electrochemistry, Toki Messe, Niigata, Japan.
6. The Telegraph Awards.
7. Member of the Royal Society of Chemistry (MRSC)

### **Presented in Seminar/Conferences**

1. Nanobio Technology Enabled IoT-Driven Electrochemical Sensor Devices for Advanced Healthcare Applications for MSMEs. Author: **G. Dutta**. Invited as the Guest of Honour and Eminent Speaker for the Advanced Entrepreneurship and Skill Development Programme (A-ESDP) on “IoT-Driven Healthcare Innovations for MSMEs” at the National Institute of Technology, Jamshedpur, 2026.
2. Nanobio Technology Enabled Sensor Devices for On-site Monitoring. Author: **G. Dutta**. In 35th Anniversary World Congress on Biosensors in Lisbon, Portugal, 2025.
3. Environmental Contaminants Monitoring Device “PENI-tron” for Sustainable Smart Agriculture: for On-site Pesticide and Nitrate Monitoring in Soil, Food, and Water. Author: **G. Dutta**. In MicroTAS 2025, Adelaide, Australia.
4. Nanobio Technology Enabled Electrochemical Sensor Devices for Advanced Healthcare Applications. Author: **G. Dutta**. ACS Global Scientific Conference, 2025, IIT Bombay.
5. Nanobio Technology Enabled Electrochemical Sensor Devices for Advanced Healthcare Applications. Author: **G. Dutta**. International Conference On Frontiers in Translational Bioengineering for Healthcare (FTBH 25), Birla Institute of Technology, Mesra, Ranchi, Jharkhand, India, 2025.
6. Nanobio Technology Enabled Electrochemical Sensor Devices for Advanced Healthcare Applications. Author: **G. Dutta**. Invited lecture to the Pittcon 2025 Conference and Exposition in Boston, Massachusetts, USA, 2025.
7. Nanobio Technology Enabled Electrochemical Sensor Devices for Advanced Healthcare Applications. Author: **G. Dutta**. Invited Lecture on 3rd National Conference on Emerging Challenges in the Frontiers of Chemical Sciences (NC-ECFCS), Manipur University, 2025.
8. Nanobio Technology Enabled Electrochemical Sensor Devices for On-site Monitoring. Author: **G. Dutta**. Invited Lecture on Advancements in Diagnostic Technologies: Global Healthcare Monitoring – 2024 (ADT-2024), NIT Allahabad.

9. Fabrication of a wash-free multiplex electrochemical biosensor for the simultaneous detection of multiple serum biomarkers: rheumatoid factor, anti-cyclic citrullinated peptide antibody and C-reactive protein, in patients with rheumatoid arthritis. Author: **G. Dutta**. 33rd Anniversary World Congress on Biosensors, Busan, South Korea, 2023.
10. NanoBiosensors for Extreme Point-of-Care Application. Author: **G. Dutta**. Invited Lecture on 3rd International Conference on Micro/Nanoelectronics Devices, Circuits and Systems (MNDCS-2023), NIT Silchar, 2023.
11. Nano-Biotechnology enabled POC Devices. Author: **G. Dutta**. Invited Lecture on Emerging Devices, Circuits & Systems for Next Generation Biomedical Applications (EDCSNextGenBioApp-2023), NIT Rourkela.
12. NanoBio Devices for Extreme Point-of-Care. Author: **G. Dutta**. Invited speaker on National Conference on Liquid Crystals (NCLC-2022), Bangalore.
13. Handheld Electrochemical Non-Enzymatic Sensor Device for Onsite Salivary Urea Detection; R. R. Suresh and **G. Dutta**. **IIInvenTiv (April 6-7) 2026 Technology Showcase** at IIT (ISM) Dhanbad.
14. Nanobio Technology Enabled IoT-Driven Electrochemical Sensor Devices for Advanced Healthcare Applications; G. Dutta. Invited Lecture in the International Conference on HealthTech Frontiers: From Discovery to Clinical Impacts (SPARC-HDCI 2026), IIT Kharagpur, May 8-9, 2026.
